That should do it. I would copy anything that was written by OGM from 3/15/03 forward. Thanks!

Okay, I will call and ask them to pull the box and give me a time that it will be ready. I have Steve's permission to go and look through the file and see what I can find. Is that all you need? Or do you need a copy of the complete file?

>>> Mary Ann Wright 3/5/2007 8:36 am >>>

What I am looking for is a memo to file or a letter which acted as a finding of 'no regulation' which would have been written sometime after Steve Alder's memo to me of March 27, 2003. Can we look for that?

>>> Vicky Dyson 03/05/2007 7:35 AM >>>

This mine is at Archives - not the Records Center - and cannot be called back. I went to Archives and made some copies for a customer a couple of weeks ago. He came and picked up the copies and I didn't keep anything from it. It is a fairly large file, I would estimate approximately 200-250 pages. Tony Gallegos is familiar with the mine and I believe Wayne Hedberg is also. If you need copies, we will need to go to Archives and make them. Can I do anything to help you?

Vicky - I need to respond to a letter right away from the Park City Atty concerning the United Park City mine. I have heard that you recalled the file from Archives last week. Can Vickie check that out for me on Monday, please? Thanks!

\$1.50 for
